Recipe Creator 9000

The diagram illustrates the workflow of the 'Recipe Creator 9000' system. It begins with a 'Home' screen, which leads to a main interface containing fields for 'Title', 'Tag', and 'Step'. This interface is annotated with 'Chopped Dile etc' and a green box labeled 'tags'. An arrow from this interface points to an 'Ave View' screen, which displays 'Njriom'. From 'Ave View', an arrow points to a 'STAGE D' screen. A green arrow labeled 'Create Recipe' loops from the 'STAGE D' screen back to the 'Home' screen. A red arrow points from the 'Home' screen to a red scribble at the bottom left. The interface also includes a toolbar with drawing tools and a 'Leave' button in the top right corner.
